

Company "**Logistic Team Sekulić**" jhas recently completed works on the construction of one of the most modern logistic centers in the region. The construction of logistic center - high rack warehouse of 8000 pallet places is the beginning of achieving our goals.

A new logistic center is only an extension of 18-year successful business of the company "**International Transport Sekulić**" from Kraljevo.

The idea of the owner, Mr. Radivoj Sekulic, when deciding on this venture, was that the Serbian market, international companies and domestic companies are provided with complete logistical support in terms of transport, warehouse, warehouse logistics, expedition and distribution. The aim and motto is "**A trusted partner - The right partner**" We want to provide our partners a complete focus on their main field of work, whether it is about production or sales activity and we take all the logistic support activities in order to achieve their goals by united forces to provide our partners to focus on their main field of work and thus come to satisfied final consumer. The decision on this step was dictated by the modern world trends that speak in favor of specialized companies.

Our desire is that  
**LTS**

becomes one of the highest quality and most reliable partners in Serbia in warehouse logistics. It is achieved by daily professional work and proper approach to resolving problems as well as by continuous training and the training of our team. In this way, we have the opportunity to offer a strategic partnership with a high level of knowledge to all our present and future partners!
