

Domestic Transportation and Distribution

Domestic transport and distribution is the youngest sector that was set up as inevitable need to provide its partners a complete logistic support from the preparation, import, customs intercession, warehousing and warehouse logistics to shipping of goods - the distribution with of duration of 24 to the final consumer.

We carry out the organization of transport of goods to all destinations in Serbia, Montenegro, Croatia, Macedonia.

Besides our fleet, we have a large number of producers conveyor-right partners with who we successfully officiate everything, even the most complex requirements of our clients. We carry out the distribution of goods of all temperature regimes (from +4 C to-25C), chemical goods, alimentary goods, technical...
